

This Old House

VICTORIA'S HERITAGE NEIGHBOURHOODS

VOLUME FOUR
FAIRFIELD, GONZALES
& JUBILEE

A PICTORIAL AND HISTORICAL INVENTORY of Victoria's designated and registered heritage houses, *This Old House* was first published in 1979. The Victoria Heritage Foundation, in cooperation with the City of Victoria Planning Department, has undertaken a complete revision in this new edition. *Volume Four: Fairfield, Gonzales & Jubilee* is the fourth and last of the volumes. It covers all 184 listed heritage sites in these neighbourhoods, including houses, institutional, apartment and commercial buildings, garages, cemeteries, and an arch, a streetcar shelter, and a wall.

Newly researched, completely rewritten and updated, this edition includes

- ← architectural analysis and social history of every structure,
- ← new photos of each property and hundreds of archival images,
- ← two indexes, one by address and one by name,
- ← a chronology of events that have affected the development of the City and its neighbourhoods,
- ← maps locating the heritage resources,
- ← a guide to local residential styles,
- ← a glossary of architectural terms, and
- ← a bibliography of research sources.

Whether you were born in Victoria or just arrived, if you're interested in architecture or our social history, the "This Old House" series is a must-read. Identifying heritage resources in this way gives our civic officials and the heritage community tools to help protect The Best City in Canada.

In all of my travels I have never come upon any publications that can compare in quality to the This Old House volumes. Social and architectural history, lavishly illustrated, combine to create volumes that are 'page-turners' in the best sense of the word.
